REPORT
OF THE BOARD OF DIRECTORS OF THE CORPORATION

To: General Meeting of Shareholders
PetroVietnam Technical Services Corporation

A. IMPLEMENTATION OF TASKS IN 2024

I. Activities of the Board of Directors in 2024

In 2024, the world situation developed positively with gradual recovery and improvement over previous forecasts, but this trend was unstable and faced many risks and uncertainties. Geopolitical tensions became increasingly fierce, possibly escalating to dangerous levels when conflicts at oil and gas centers in the world (Red Sea, Russia - Ukraine, and Gaza Strip) continued to drag on, causing the increase in prices of commodities, gasoline, input materials, transportation costs, etc., as well as disruption of the supply chain and increased production costs. Domestically, Vietnamese oil and gas industry faced a lot of challenges due to the transition toward renewable energy in most traditional service sectors in the domestic market, such as shipbuilding, port services, logistics, mechanical services, O&M of domestic oil and gas projects, etc., all of which faced many difficulties and suffered a significant decrease in work volume. PTSC had to endeavor to find new directions and markets to ensure the ongoing growth. By clearly identifying the challenges and difficulties, the Board of Directors (BOD) of the Corporation has developed an Action Program with consistent directions and specific and focused solutions with the following achievements.

1. Results of implementing the tasks assigned by the General Meeting of Shareholders

1.1. Results of production and business activities:

Implementation of business targets in 2024:

As of the end of 2024, the Corporation completed and exceeded all of targets assigned by GMS under Resolution No. 337/NQ-PTSC-DHDCD dated June 17, 2024 with total consolidated revenue of 24,986 billion VND, reaching 161% of the annual target in 2024, up by 14.9% YoY. Annual profit before tax in 2024 was 1,553 billion VND, reaching 181% of the annual target in 2024, up by 21.6% YoY.

Consolidated results of the Corporation in 2024:

No.	ITEM	Unit	Actual for 2023	Plan for 2024	Actual 2024	vs. Plan for 2024 (%)
1	Consolidated revenue	Billion VND	21,742	15,500	24,986	161.2%
2	Profit before tax	Billion VND	1,277	858	1,553	181.0%

No.	ITEM	Unit	Actual for 2023	Plan for 2024	Actual 2024	vs. Plan for 2024 (%)
3	Profit after tax	Billion VND	1,060	660	1,255	190.1%
4	Taxes and payables to State Budget	Billion VND	843	600	1,318	219.7%

Results of the Parent Company in 2024:

No.	ITEM	Unit	Actual for 2023	Plan for 2024	Actual for 2024	vs. Plan for 2024 (%)
1	Charter capital	Billion VND	4,780	4,780	4,780	100.0%
2	Revenue	Billion VND	11,334	7,000	13,236	189.1%
3	Profit before tax	Billion VND	1,287	660	1,672	253.3%
4	Profit after tax	Billion VND	1,123	465	1,455	312.8%
5	Average profit after tax/charter capital	%	23.50%	9.73%	30.43%	312.8%
6	Actual investment	Billion VND	416	1,823	627	34.4%
7	Taxes and payables to State Budget	Billion VND	513	330	626	189.7%

1.2. Payment of dividends in 2023:

Complying with the Resolution of the 2024 Annual General Meeting of Shareholders, on October 30, 2024, the Board of Directors issued Resolution No. 745/NQ-PTSC-HDQT and implemented the payment of 2023 dividend at rate of 7%/par value in cash (paid on December 17, 2024). The payment of dividends to Shareholders has been carried out promptly and in compliance with regulations.

1.3. Results of implementing Resolution No. 50/NQ-PTSC-DHCD dated February 2, 2024 and Resolution No. 337/NQ-PTSC-DHCD dated June 17, 2024 of the General Meeting of Shareholders (GMS)

- Completed the 2024 Financial Plan and exceeded key targets set out in the 2024 Business Plan assigned by GMS;

- The Corporation signed a contract on auditing the 2024 Financial Statements with PwC (Vietnam) Co., Ltd., in compliance with applicable regulations;

- Paid 2023 cash dividends to Shareholders, paid remuneration and operating expenses to members of BOD and Supervisors in compliance with regulations;

- Completed the plan on merger of PTSC G&S into the Corporation, and announced information on the establishment PTSC G&S Subsidiary – Branch of PTSC. The parent company has recorded the assets and liabilities of PTSC G&S at fair value as re-evaluated by the appraisal organization during the merger with the parent company in accordance with current regulations (which differs from the approval content of the General Meeting of Shareholders of the parent company in Resolution No. 337/NQ-PTSC-DHDCD dated June 17, 2024, which stated that the assets and liabilities of PTSC G&S should be recorded based on the book value of PTSC G&S).

In the event of changes to related regulations, the value of assets and liabilities will be recorded according to the relevant regulations applicable for the fiscal year 2025.

- The implementation of the Contract for design, procurement, construction and installation of the central engineering platform, housing platform and flare tower (EPCI#1) with Phu Quoc Petroleum Operating Company approved by GMS under Resolution No. 50/NQ-PTSC-DHCD is as follows.

- + As of the end of February 2025, 17.88% of EPCI#1 Project has been completed (up by 0.64% over the planned target);
- + The Project achieved the milestone of 1,537,773 safety hours (as of February 28, 2025) with no incident;
- + The joint venture of McDermott and PTSC continued carrying out the Project in accordance with provisions of the Contract, and updated and reported the progress at the annual meetings.

1.4. Direction, governance, and management

- BOD operated in strict compliance with the Charter, the Law on Enterprises, and other legal regulations. It aligned its work with GMS resolutions, approved plans and actual circumstances, ensuring effective leadership of the Corporation.

- In 2024, BOD directly led the preparation and drafting of documents, and successfully organized the 2024 Annual and Extraordinary General Meetings of Shareholders of the Corporation, reviewed and approved the content and program for the Corporation's representatives at subsidiaries to vote for approval at their meetings of GMS, ensuring the rights and interests of the Corporation and its Shareholders in compliance with actual circumstances of the subsidiaries, orientations of the Corporation, and applicable regulations.

- To ensure that management practices of BOD complied with legal documents, regulations, changes, and requirements, as well as changes in business environment to improve the effectiveness and efficiency of management and operation at all levels at the Parent Company and subsidiaries, BOD led the review of internal governance document system of the Corporation, updated and identified new changes, developments, regulations, and requirements, made appropriate changes, and complied with applicable regulations.

- BOD successfully led the implementation of personnel organization practices of the Corporation to maintain the stability of the system, improve the effectiveness in directing and leading all aspects of operations in 2024, and issued the resolutions and decisions on personnel operations as follows.

+ Appointed 01 President & CEO and 01 Vice President of the Corporation; dismissed 01 President & CEO, 02 Vice Presidents of the Corporation; appointed 02 Heads of the Departments; and completed ongoing procedures related to members of BOD under its competence.

+ Carried out the mobilization and turnover of officers for election, appointment, and dismissal of the positions of Chairman, Board Members, and Directors at 09 subsidiaries (Petro Hotel, PTSC Marine, PTSC M&C, PVSb, POS, PTSC Phu My, PPS, PTSC Dinh Vu, PV Shipyard).

- BOD approved the issuance of resolutions, decisions, and documents related to the restructuring of the Corporation in compliance with strategic development orientations and practical production and business activities of the Corporation, including:

- + Project on restructuring the Corporation (Resolution No. 190/NQ-PTSC-HDQT dated April 3, 2024);
- + Digital Transformation Strategy of PTSC for 2024-2030 period with vision to 2035;
- + Establishment of PTSC Underground Construction and Survey Subsidiary.

- BOD directed and developed the Action Program to implement the tasks of the Corporation in 2024, disseminated them to all departments, officers, employees, and workers; resolutely and promptly implemented key tasks and solutions; accelerated the investment progress with focus on key areas in line with market demand, especially projects expected to be completed in 2024; promptly resolved the difficulties and obstacles faced by the Corporation and subsidiaries to mobilize all resources for production and business development.

- BOD fully provided and updated information on the Corporation's operations in compliance with provisions of the law on securities for listed organizations; led the support to organize the coordination with funds and investors with interest in the Corporation's shares; organized the reception and coordination with shareholders upon request to explain, clarify, and record their opinions to improve the quality of corporate management and ensure maximum interests for shareholders and stakeholders.

- BOD approved and carried out the 2024 Internal Audit Plan, coordinated the operations in person and online on important topics, projects, tasks, and issues that BOD regarded as necessary with authorized persons of the Corporation, subsidiaries, companies with capital contributions, and joint ventures, to promptly resolve issues under its competence, making sure that all activities of the Corporation complied with the laws and resolutions of GMS and BOD.

- Based on the approved investment plan, BOD closely monitored investment activities of projects at the Parent Company, consistently led the supervision of investment projects at the subsidiaries, and conducted investment-related tasks to ensure the compliance with applicable regulations. Estimated investment disbursement in 2024 of the Parent Company - PTSC was 627 billion VND, reaching 34.4% of the annual target. Though the investment in 2024 grew by 50.8% YoY, which was the most positive achievement in recent years, this failed to meet the planned target due to strong fluctuations in ship trading market, price increase, and limited vessel supply, causing obstacles in selecting and procuring suitable vessels. The Corporation will continue seeking appropriate solutions to overcome the difficulties, speed up the progress, and aim to complete the investment plan in the subsequent stages.

2. Summary of the meetings and decisions of the Board of Directors

BOD held 05 meetings, carried out the 2024 Supervision Program of BOD over 03 subsidiaries, including PTSC M&C Company, PV Shipyard, and PTSC Thanh Hoa, and issued 77 opinion sheets (including 12 confidential ones); issued a total of 320 documents (including 39 confidential ones), including 140 resolutions and decisions (including 14 confidential ones) related to production and business issues, investment, human resource organization, personnel, planning, etc. The list of meetings, resolutions, and decisions of the Board of Directors as attached **Appendix 2** and the Report on corporate governance of the Company in 2024 have been announced.

Decisions of BOD were made in compliance with applicable regulations and actual business conditions, providing important directions that helped the Board of

Management in the governance, coordination, and facilitation of activities of the organizations and associations.

3. Activities of independent members of the Board of Directors

Independent members and other members of BOD have actively discussed, raised their opinions for reviewing and deciding on matters under the Board's competence, ensure the compliance with applicable regulations; monitor and supervise the performance of and compliance with corporate management standards; supervise and evaluate risk management practices; approve and supervise the contracts and transactions with related parties as prescribed.

Independent members of BOD have evaluated the operations of BOD of the Corporation in 2024 as detailed in attached **Appendix 3**.

4. Remuneration, allowance, operating expenses and other benefits of the Board of Directors and each of its members

Salary, remuneration, allowance, and operating expenses of BOD have been made in compliance with the Charter of the Corporation, resolutions of the 2024 Annual General Meeting of Shareholders, and applicable regulations. See attached **Appendix 4** for details.

5. Transactions with related persons

In 2024, there was no transaction between the Corporation and enterprises in which members of the Board of Directors are founding members or corporate managers in the most recent 03 years from the transaction date.

In 2024, the Corporation had transactions with its subsidiaries, enterprises with 50% or more of charter capital controlled by the Corporation, members of BOD of the Corporation, and their related persons with details as in attached Appendix 6.

II. Results of supervision over the President & CEO and Board of Management in 2024

BOD's supervision over President & CEO and the Board of Management has been conducted in compliance with the Internal Governance Regulations of the Corporation. The President & CEO, also a member of BOD, always ensure BOD's supervision over the management of the Corporation. At periodic meetings of BOD, the President & CEO has presented reports on activities of the Corporation, implementation of resolutions of GMS, resolutions and decisions of BOD, and specific topics as requested by BOD. Members of BD participated in monthly production and business meetings, and promptly updated the activities of the Corporation. The President & CEO and BOD have properly complied with provisions of laws, management levels set out in the Charter, Internal Governance Regulations of the Corporation, and resolutions of GMS and BOD.

BOD highly appreciated and acknowledged the efforts, union, and determination of the Management and Executives of the Corporation in the context of many difficulties and complex fluctuations in the macro economy and international market with significant impacts on many production and business sectors, especially for technical service firms such as PTSC. The President & CEO has directed, conducted flexible operations, promoted production and business activities, maintained domestic and industrial markets, and focused on optimizing the resources and

expanding the operations to non-industrial and international markets. Outstanding results in the management operations:

- Comply with the regulations, ensure the safety, protect the environment in all aspects of operations of the Corporation and its subsidiaries, and exceed the plans, targets, and tasks assigned by GMS. Completed the overall development strategy and component strategies to submit to BOD in compliance with the established schedule.

- Ensure the progress and maintain proper risk control in existing major offshore renewable energy projects; continue participating in the bid process for new projects to secure a sustainable workload in the future; properly maintain appropriate transformation orientation with initial achievements in completing the system, research and development as the basis for shaping new products and services.

- Promptly mobilize and concentrate high-level resources to implement Block B packages and projects in the field of traditional energy products and services (Oil & Gas), ensuring the progress, safety and quality of the projects.

- Manage, coordinate, and use the resources efficiently; effectively manage cash flows, vehicles and equipment that have received timely investments; conduct effective operations in domestic and foreign markets with high performance, job security, income and welfare for workers.

III. Results of activities of each member of the Board of Directors in 2024

- Meetings of BOD were convened and conducted in compliance with the procedures prescribed in the Law on Enterprises, Charter, and Internal Governance Regulations of the Corporation with the attendance of the Board of Supervisors; meeting invitations, records, and documents were fully distributed to the members of BOD and BOS attending the meetings for reference and review in compliance with the regulations. Meeting contents covered all topics related to the Corporation's operations, complied with applicable regulations, and were actively discussed and fully and carefully evaluated by members of BOD to provide the best directions and solutions for the Corporation. Minutes of the meetings of BOD have been fully prepared and signed by the members of BOD attending the meetings in appropriate forms in compliance with the laws.

- Decisions of BOD at the meetings were made in compliance with provisions of law, Charter and Internal Governance Regulations of the Corporation, resolutions of GMS, and approved strategies and business plans.

- BOD fulfilled its functions, rights, and obligations in accordance with the provisions of the Law on Enterprises, Charter and Internal Governance Regulations, Regulations on activities of BOD, and other relevant regulations of the Corporation, and properly conducted the supervision over the operations of BOD. BOD worked with high sense of responsibility and transparency in the management of listed companies, properly fulfilled its role, proposed many solutions, and made correct and timely decisions. BOD also facilitated favorable conditions for independent members of BOD to fulfill their rights and obligations.

BOD properly completed its assigned duties with detailed results of each member as in attached **Appendix 5**.

B. PLAN ON ACTIVITIES OF THE BOARD OF DIRECTORS FOR 2025

In 2025, the Plan on activities of BOD of the Corporation focuses on the following key tasks and solutions.

1. Continue the innovation and improvement of corporate governance performance, and strive with high determination to successfully and comprehensively implement the goals and tasks of the Production and Business Plan for 2025, the tasks of the 5-year Plan for 2021-2025 period, creating a solid foundation for sustainable development of the Corporation.

2. Focus on implementing management methods: Manage the fluctuations, value chains, ecosystems, digital platforms, etc.; strictly complied with the motto of *"renewing old motivations, adding new ones"* and be ready to change and transform the business models in compliance with energy transition trends, changes, fluctuations, and modern development.

3. Lead the planned completion of the development strategy of the Corporation to 2030 with vision to 2050 and ESG Strategy.

4. Continue restructuring PTSC in general in accordance with actual conditions to ensure its sustainable development towards the goal of removing intermediary levels, focusing on efficiency and adequate employees, jobs, and income, creating new motivation and energy to develop new products and services both domestically and internationally. Optimize the resources with focus on production and business performance and improvement of labor productivity.

5. Promote the research and investment in renewable energy projects (wind power, tidal power, etc.) in offshore areas and participate in the construction and implementation of appropriate renewable energy projects with existing competency and experience. Research and cooperate with potential investors to develop the supply chain for offshore wind power projects in Vietnam and the region; promote business development; develop domestic and foreign non-oil and gas markets; develop new products; increase the revenue; find more jobs and projects; manage the successful and effective performance of duties in compliance with applicable regulations; constantly improve the management system; create a solid foundation for business stability and development; and effectively carry out the cooperation and reputation and brand development.

6. Ensure proper implementation of legal practices, including but not limited to update, storage, communication, usage, training, and application. Based on these, make sure that all tasks and activities of the Corporation properly comply with applicable regulations; coordinate, handle, and properly carry out the inspections and investigations, audit, supervision, and control; properly maintain and resolve economic and civil disputes, complaints, claims, and conflicts (if any).

7. Properly conduct financial, accounting, payment, and debt collection activities to ensure a good, stable and healthy financial situation and capital and cash flow; effectively use capital resources and preserve and grow capital base of the Corporation.

8. Direct and supervise the implementation of projects, jobs, and activities that have been, are, and will be implemented to ensure absolute safety, environmental protection, occupational health and quality, progress, and efficiency of the projects and work at the highest level; then, successfully and effectively meet the targets, tasks, programs, plans and activities set out and approved in the 2025 Business Plan (Appendix 1).

9. Promote the implementation and application of the system and solutions, and continuously improve, upgrade, and enhance the qualifications and competitiveness.

10. Develop and improve, upgrade, and complete the risk management system for business activities and corporate risk management with focus on the leadership.

11. Properly comply with applicable regulations on the regimes, policies, care, compensation, reward, and discipline for the employees, rights and interests of Shareholders and Owners of the Corporation. Meanwhile, coordinate to carry out activities of associations, socio-political organizations, Trade Unions, Youth Unions, veteran associations, including commendation and promotion of organization performance.

12. Continue leading and making breakthroughs in science, technology, innovation, and digital transformation throughout the Corporation. Implement digital transformation and invest in ERP systems; upgrade and expand the effective exploitation of modern software, application, and information technology to production and business management and operations; continuously improve and promote the initiatives and inventions.

13. Strengthen the proper management of investment, only make an investment when it is proven to be effective, perform investment-related tasks to ensure the compliance with applicable regulations.

14. Inherit, maintain, promote, and develop the corporate culture of the Corporation and PetroVietnam; properly carry out social security tasks. Successfully and optimally perform other tasks, jobs, and activities that arise, or when assigned by GMS or superiors.

We hereby present the report of activities of the Board of Directors of 2024 and plan for 2025 above.

We respectfully look forward to the General Meeting of Shareholders for consideration and approval.

Sincerely./.

REPORT
RESULTS OF PRODUCTION AND BUSINESS ACTIVITIES IN 2024
AND PLAN FOR 2025

To: General Meeting of Shareholders
PetroVietnam Technical Services Corporation

SECTION I
SUMMARY REPORT
OF PRODUCTION AND BUSINESS ACTIVITIES IN 2024

I. Production and Business Activities

1) Background

In 2024, the macro economy and international markets had to face many difficulties and complex fluctuations. Russia and Ukraine conflict continued to drag on and caused serious impact on the global energy and food supplies. In addition, escalating tensions between Israel and Hamas in the Middle East further exacerbated the disruption of cross-border supply chains of commodities and services, increasing the pressure on international trade and investment. Climate change and rising energy costs also posed significant challenges to global economic growth.

Domestically, the investment in projects for exploration, exploitation, and improvement of oil and gas reserves continued facing many obstacles. By the end of 2024, nevertheless, Block B - O Mon gas-power project chain has commenced with positive expectations for a stable energy supply for the economy. In addition, the prices of gasoline, raw materials, and transportation still experienced significant fluctuations with profound impacts on many production and business sectors, especially for such technical service firms as PTSC, requiring PTSC to adapt flexibly and innovate for development.

In that context, PTSC has actively promoted its production and business activities with focus on optimizing the resources and expanding its operations to international markets. Many vessels and equipment have been assigned to international tasks for high performance. Meanwhile, PTSC also sped up the implementation of existing offshore renewable energy mechanical projects and further actively bid for new projects to ensure a stable source of works in the future. Particularly, with the awarded contract, PTSC promptly mobilized resources to implement the bidding packages of Block B Project to ensure its progress and quality. Production and business activities of PTSC continued to be organized in a safe and effective manner, contributing to the completion of the goals and

tasks in the 2024 plan, providing a solid foundation for development in the subsequent years.

2) *Production and business activities*

a) Operating results

Total actual consolidated revenue for 2024 was **24,986 billion VND**, reaching 161% of the 2024 plan, up by 15% YoY. Actual consolidated profit before tax for 2024 reached **1,553 billion VND**, reaching 181% of the 2024 plan, up by 22% YoY. The proportion of revenue from providing services abroad in 2024 reached **over 50%**, making a significant contribution to PTSC's revenue structure.

The achievements in the past year are clear testament to the strategic vision and constant efforts of the Board of Management and employees of PTSC. The Corporation has resolutely taken powerful management and restructuring measures to promote the business, optimize operational efficiency, and strictly control and minimize costs. These efforts not only help PTSC respond flexibly to market fluctuations but also ensure the maintenance of stability, safety and efficiency in its production and business activities.

7.	Actual investment	416	1,823	627	34.4%	150.8%

3) ***Details of Operating Results and Services***

a) **Provision of Specialized Vessels:**

Actual revenue of 2024 was 2,596 billion VND, reaching 185% of 2024 Plan, decreased by 30% YoY.

In 2024, PTSC continued developing overseas markets by assigning service vessels to foreign duties (Middle East, India, Taiwan, Malaysia, etc.). It also proactively approached the offshore renewable energy sector to provide timely vessel services.

PTSC has effectively provided service vessels for oil spill response, security, safety, fire prevention, and towing for Dung Quat Oil Refinery and Nghi Son LNG Plant, ensuring to meet the clients' requirements.

b) **Provision, Management, Operation, and Exploitation of FSO/FPSO Vessels:**

Actual revenue of 2024 was 2,792 billion VND, reaching 140% of 2024 Plan, decreased by 7% YoY.

FSO/FPSO lease service provided by PTSC and co-owners met the clients' requirements (FPSO PTSC Lam Son for Lot 01/97 & 02/97, FPSO Ruby II Lot 01/17 & 02/17, FSO PTSC SCS 1 for Moc Tinh Hai Thach Field, FSO Orkid for PM3-CAA Malaysia, FSO Rong Doi MV12 for Rong Doi - Rong Doi Tay Field, FSO Golden Star for Sao Vang dai Nguyet Field, etc.). In which, PTSC took over all O&M duties for a number of projects with ongoing exploitation rate of nearly 100%, surpassing the target set in the contract. PTSC also maintained the supply, management, exploitation, and safe operation of Viet Dragon 68 Floating LPG Warehouse to meet the client's requirements. These achievements are testaments PTSC's outstanding competencies in the fields of supplying, managing, operating and exploiting FSO/FPSO vessels.

In particular, on December 1, 2024, PTSC was trusted by MCB and awarded with FSO Supply Contract for Lac Da Vang Project with design capacity of 500,000 barrels of crude oil, expected to be operated in the second half of 2026.

For human resource supply services, PTSC continued providing personnel to perform technical support, operation and maintenance of FPSO/FSO for clients to ensure the safety and efficiency.

c) **Oil and Gas Mechanical Services and Industrial Plants:**

Actual revenue of 2024 was 17,227 billion VND, reaching 215% of 2024 Plan, decreased by 49% YoY. Of which, revenue from oil and gas mechanical projects was 9,998 billion VND, revenue from industrial construction and installation projects was 1,312 billion VND, and revenue from renewable energy mechanical projects was 5,917 billion VND.

Oil and Gas Mechanical Services: During the year, PTSC safely and effectively carried out major oil and gas mechanical projects, and basically completed Gallaf Batch 3 EPCI5 Project (*total capacity of 19,300 MT*). Meanwhile, PTSC continued organizing and properly carried out work items of Block B Project (EPCI Package #1: *started the construction of CPP Central Technology Platform Base on September 18, 2024, Housing Platform Base on November 1, 2024, and CPP Central Technology Platform Topside*

Block on December 1, 2024; EPCI Package #2: started the construction of 4 bases and 4 topside blocks of well-top platform and collection platforms on September 18, 2024; SWEPC Package), Lac Da Vang Project (a groundbreaking ceremony was held on October 16, 2024).

Industrial Construction Services: PTSC focused the resources, properly organized the implementation in a safe and effective manner, and ensured the quality and progress of Aircraft Fuel Supply System - Long Thanh International Airport Project.

Renewable Energy Mechanical Services: In 2024, PTSC basically completed the works at Hai Long OSS Project (*including 2 offshore transformer stations, i.e. HL2 OSS and HL3 OSS, with total capacity of 20,534 MT*) and Taiwan offshore wind power base fabrication and supply project - CHW2204 (*the first batch of 4 bases was launched and handed over to the Client on December 1, 2024, marking a historic milestone not only for PTSC but also for renewable energy industry of Vietnam, thereby affirming PTSC's competencies to participate in the global supply chain and meet strict standards from international partners*). PTSC continued focusing the resources on safe and effective implementation of Baltica 02 Project (*a groundbreaking ceremony was held on November 27, 2022 to begin the construction and manufacturing phase*). Particularly, after CHW2204 Project, PTSC won the bid for a large-scale project to supply new offshore wind power pillars valued at hundreds of millions USD for an international client in the Asia-Pacific market. This was the testament of PTSC as a reputable and quality provider of renewable energy services in the global supply chain.

d) Oil and Gas Port Services:

Actual revenue of 2024 was 2,156 billion VND, reaching 144% of 2024 Plan, decreased by 28% YoY.

In 2024, production and business activities at Vung Tau Downstream Port were consistently and effectively organized to ensure an adequate supply of vessels/equipment, meeting the requirements for lifting and transporting commodities and services for clients at the ports, while the provision of services was further expanded to foreign markets to improve the performance of production and business activities.

Production and business activities at general ports of PTSC, including Phu My General Petroleum Service Port, Hon La Port, Wharf 1 of Dung Quat Port, and Nghi Son Port were properly maintained.

There were still difficulties in the operation of Dinh Vu Port as it had to share the market with a number of newly built ports in the region, creating fierce competition in service prices.

e) Transportation, Installation, Operation, and Maintenance of Oil and Gas Facilities:

Actual revenue of 2024 was 3,016 billion VND, reaching 163% of 2024 Plan, decreased by 51% YoY. Revenue from this sector increased sharply as PTSC actively participated in bid process and implemented many projects for customers in the Middle East, Thailand, Malaysia, etc.

In 2024, PTSC completed a number of projects such as phase B1 of Gallaf 3 project, MV19 FPSO separation project, HL-D1 Hai Long Offshore project, and continued focusing the resources on implementing the following projects: Phase A2 of Offshore

Brownfield GLF3 CPP Project, Phase B2 of GLF3 Project, PS3-Brownfield Construction Study Project. In addition, PTSC is also preparing the procedures to carry out Lac Da Vang Pipeline Project.

During the year, transportation barges (PTSC 01) and housing barges (POS1) were mobilized for foreign customers to rent with high performance, contributing to increasing the efficiency of production and business activities.

Besides, PTSC continued providing safe and effective maintenance contracts, supply long-term/short-term human resources for oil and gas projects for customers.

f) Seismic and Geologic Survey of Construction Works and Survey and Repair of Underground Works with ROV:

Actual revenue of 2024 was 525 billion VND, reaching 150% of 2024 Plan, decreased by 15% YoY.

During the year, PTSC successfully carried out the works, contracts, and projects of geological and geophysical surveys and underground construction repair surveys with ROVs, such as: DOCCT survey for Bataan - Cavite Interlink offshore bridge construction project of the Philippines; DOL & DOCCT survey projects for customers; survey and repair of STV-RD-BH-LH, TGT-BH, RP3-RC1, TU-SV & NCS2 pipe hangers, etc. Particularly, in 2024, PTSC successfully provided two ROVs to customers in the Middle East region. These equipment were mobilized for extended period of time, meeting the technical requirements and progress of the projects, thereby demonstrating PTSC's capability to provide high-quality services, contributing to improve the efficiency of production and business activities, and affirming PTSC's position in providing services to the international market.

PTSC continued safely and effectively operating PTSC Researcher, Binh Minh, and ROV equipment to serve geological survey activities and underground construction repair surveys for Customers.

Besides, PTSC is continuing completing necessary procedures to dissolve PTSC CGGV Joint Venture.

g) Investment and Business in the Field of Offshore Renewable Energy:

Recently, PTSC has actively contacted and worked with many partners and potential customers in the field of offshore renewable energy and conducted the execution of many Memorandums of Understanding and Cooperation Agreements on investment and development, as well as financial solutions for offshore renewable energy projects. PTSC will continue the search and development of markets, attend fairs and exhibitions, and meet potential partners and customers to participate in the construction and implementation of renewable energy projects.

II. Investment

1) *Investment Activities of Parent Company - PTSC*

The Parent Company - PTSC has focused the resources to effectively implement the tasks set out in the approved investment plan for 2024. A number of important investment projects have been conducted by the Parent Company as follows:

- Completed the investment in 01 oil and gas service vessel.

- Continued the organization and implementation of capital construction investment projects, such as: Wharf No. 3 Project - Dung Quat General Port; office building, etc.
- Implemented the investment in equipment to serve the construction of offshore renewable energy and oil and gas projects.

The investment in 2024 of the Parent Company - PTSC was 627 billion VND, reaching 34.4% of the annual target. Though the investment in 2024 was lower than the annual target, investment activities of PTSC in 2024 made many major breakthroughs with much higher performance, up by nearly 51% YoY.

2) *Investment Activities of Subsidiaries - PTSC*

Investment activities of the subsidiaries of PTSC continued to be focused with total investment value of over 294 billion VND, equivalent to 77% of that in 2023. Many investments in infrastructure, equipment, and software have been completed and actively supporting the production and business activities of the subsidiaries during the year.

III. Other activities

PTSC took many solutions to promote its production and business activities, cut down the expenses, and practice savings in the production and business.

PTSC properly maintained the application of health, safety, environment and quality management systems in accordance with ISO 9001, ISO 14001 and ISO 45001 throughout the Corporation.

Labor safety, environmental protection, and fire prevention were always of top priority to PTSC, which were regularly inspected and closely monitored to ensure absolute safety in the production, business and services.

PROPOSAL

For approval on the Provision and Charter of Floating Storage and Offloading (FSO) Facility with Branch of Vietnam National Industry – Energy Group - Phu Quoc Petroleum Operating Company

To: General Meeting of Shareholders
PetroVietnam Technical Service Corporation.

Pursuant to:

- *Law on Enterprises No. 59/2020/QH14 passed by the National Assembly of the Socialist Republic of Vietnam on 17 June, 2020, effective as from 01 January 2021;*
- *The Charter of PetroVietnam Technical Service Corporation (“PTSC”);*
- *Invitation To Bid (ITB) issued by Phu Quoc Petroleum Operating Company (“PQPOC”) regarding the Provision and Charter of a Floating Storage and Offloading (FSO) Facility in support of development of Gas Fields belonging to the Blocks B&48/95 and 52/97 (“**Block B Project**”);*
- *Pre-bid Agreement (“**Pre-bid Agreement**”) by and between PTSC and Yinson Production Capital Pte Ltd (“Yinson”) for Bidding of the Block B FSO, under which, if awarded, Parties shall execute the project through join-venture;*
- *Bid Proposal submitted for the Provision and Charter of Block B FSO submitted to PQPOC on 23/09/2024.*

Recently, PTSC has closely coordinated with its partner, Yinson, to participate in bidding for the provision, operation, and maintenance of a floating storage and offloading (FSO) facility (“**Contract**”) in support of Block B Project for PQPOC. Parties have reached agreement on the key terms of Contract and are in the process of finalizing its remaining details through ongoing negotiations. In order to meet the overall project schedule, PQPOC will issue the Letter of Award (“LOA”) to PTSC, while Parties shall proceed in parallel to finalize Contract at the earliest practicable time. The Board of Directors respectfully reports to the General Meeting of Shareholders (“GMS”) the following matters:

I. Contract Information:

1) General summary of the Contract:

- Title of the Contract: the Provision and Charter of a Floating Storage and Offloading (FSO) Facility for the development of the Blocks B&48/95 and 52/97.
- Contract Entities:

- + Branch of Vietnam National Industry – Energy Group - Phu Quoc Petroleum Operating Company (PQPOC);
- + PetroVietnam Technical Service Corporation (PTSC).
- Joint Venture Partner: PTSC has entered into a cooperation with Yinson (one of the world’s leading FSO/FPSO providers) through the joint venture entity PTSC South East Asia Pte (PTSC holds a 51% stake and Yinson holds a 49% stake).
- Contract Status: Key terms and conditions have been agreed upon. The remaining provisions of Contract are being finalized and expected to be completed within 60 days from the effective date of LOA.

2) Key Terms and Conditions of the Contract:

- Scope of work: Provision and Charter of a Floating Storage and Offloading (FSO) and Operation and Maintenance (O&M) services for the Block B Project.
- Time Charter Period:
 - + Initial Time Charter Period: 14 years.
 - + Extended Time Charter Period: Extension period of up to 9 years (at the sole option of PQPO, on a yearly basis).
- Estimated Contract Value (excluding VAT):
 - + More than USD 480 million for the 14-year Initial Time Charter Period.
 - + More than USD 600 million all, including the 9-year extension period.
- Indicative Time frame:
 - + Award: 4-5/2025.
 - + EPCIC execution period: 28 months.
 - + Handover and achievement of Provisional Acceptance: 2027.
- Novation: Either Party may novate/assign Contract with the prior consent of the other Party.
- Governing Law: Law of England and Wales, or Vietnamese Law (On negotiation).
- Arbitration: Singapore International Arbitration Centre (SIAC) or Vietnam International Arbitration Centre (VIAC), subject to final agreement by Parties.

3) Key financial indicators of the Project:

Although the Contract is still under finalization, the preliminary financial indicators have been agreed upon in Bid Proposal, ensuring economic efficiency and compliance with PTSC’s internal regulations, specifically as follows:

- Return on Equity (ROE): > 10%.
- Expected Project benefits:
 - + To provide a stable cash flow throughout the charter period (14 to 23 years).
 - + To secure long-term revenue and contribute to consolidated profits of PTSC.

- + To affirm and enhance PTSC's brand position in the FSO/FPSO industry, while delivering sustainable value to shareholders over the long term.

4) Project Execution Plan:

Novation mechanism:

- Pursuant to the Pre-Bid Agreement between PTSC & Yinson and Bid Proposal, upon signing Contract with PQPOC, PTSC shall transfer all its rights and obligations to the Joint Venture PTSC South East Asia Pte. Ltd through a Novation Agreement (“Novation Agreement”);
- The Joint Venture shall perform all works related to the Contract;
- This mechanism is similar to those applied in previous FSO/FPSO projects, facilitates the following objectives:
 - + To reduce initial capital pressure, allows immediate execution the work to meet Project schedule.
 - + To utilize international Partner's experience and capabilities.
 - + To share risks and harmonize mutual interests.
 - + To utilize Partner's capacity to arrange long-term international financing at competitive costs.

Yinson's Profile:

- Recognized as a global leader in FSO/FPSO provider, with a strong track record in international projects and proven capabilities in technical execution, project governance, and finance arrangements.
- Has partnered with PTSC since 2011, successfully delivered projects such as FSO PTSC Bien Dong 01, FPSO PTSC Lam Son, and currently executing the FSO Lac Da Vang project (which is quite similar to that of the Block B project).
- A Joint-Venter, PTSC South East Asia Pte. Ltd (PTSC 51%, Yinson 49%) has effectively implemented the previous project (FSO PTSC Bien Dong 01), optimizing resources and reducing management costs.

5) Analysis, assessment, and mitigation of risks:

Based on the practical experience of FSO/FPSO project implementation over recent years, the factors and exposure levels of risk associated with the provision of FSO/FPSO service have been assessed to be lower than those in other business segments of PTSC, several foreseeable risks have been anticipated and addressed through specific arrangements with the Client (such as Taxes, Early Termination of contract). Nonetheless, potential risks have been duly identified, assessed and control measures have been proposed accordingly, as follows:

- **Mitigation measures for risks of investment cost exceeding the approved budget:**
 - + Terms and conditions of Contract provide for additional payment arising from Client's change requests.
 - + The budget has been carefully developed, with contingencies based on practical experience and suppliers' quotations.

- + **Assessment:** The probability of material investment costs overrun is low, associated risks have been effectively controlled.
- **Risk mitigation measures for potential damages during operational and production activities:**

Annual repair costs have been estimated based on historical data from existing FPSO/FSO operations, incorporating assumed cost escalation scenarios. Although the probability of repairs is relatively high, the risk that such costs would significantly impact the project's economic efficiency remains low.
- **Risk mitigation measures for interest rate increases on the Project's loan, as follows:**
 - + To utilize financial derivatives (hedging) to fix interest rates
 - + A financial contingency has been included in the plan.
 - + **Assessment:** The risks have been mitigated at a minimal level.
- **Risk control measures for Contract early termination:**
 - + Contract includes a fixed Initial Time Charter Period with applicable early termination fees.
 - + Block B's reserves have been officially assessed and approved by relevant Authorities, thereby minimizing the risk of early cessation of production.
 - + **Assessment:** Low risk.

II. OBSERVATIONS, ASSESSMENT, AND RECOMMENDATIONS:

1) Observation and Assessment:

- Strategic importance:
 - + Block B Project is the largest O&G development in Vietnam, holding strategic importance amid the O&G market downturn.
 - + Participation in FSO Block B Project package affirms PTSC's position in the FSO/FPSO service, and materializes its 2025–2030 development strategy.
- Economic and social benefits:
 - + Secures long-term, sustainable revenue and profitability over a 14–23 year period.
 - + Increase shareholder value by improving ROE > 10%.
 - + Generate hundreds of stable and long-term employment opportunities.
- Feasibility and risk management:
 - + PTSC and Yinson have had proven experience in successfully delivering similar projects.
 - + Novation mechanism to the Joint Venture helps optimize resources and reduce risks.

2) Legal Basis:

Pursuant to Article 167 of the 2020 Law on Enterprises and Article 15 of the PTSC's internal regulation, any contract with a provisional value exceeding 35% of the total assets (as stated in the latest financial statement) is subject to approval by the GMS.

3) Recommendation

The execution of the Contract constitutes a strategic opportunity for PTSC to reinforce its market position, and make a meaningful contribution to the advancement of Vietnam's O&G industry, Board of Directors respectfully recommends the following to GMS for due consideration and approval:

- i) To approve the Contract for "Provision and Charter of Floating Storage and Offloading Facility (FSO)" to be entered into between PetroVietnam Technical Service Corporation and Branch of Vietnam National Industry – Energy Group - Phu Quoc Petroleum Operating Company (PQPOC), with the principal terms as follows:
 - Scope of work: Provision and Charter of a Floating Storage and Offloading (FSO) and Operation and Maintenance (O&M) services for the Block B Project.
 - Time Charter Period:
 - + Initial Time Charter Period: 14 years.
 - + Extended Time Charter Period: extension period of up to 9 years (at the sole option of PQPO, on a yearly basis)
 - Estimated Contract Value (excluding VAT): More than USD 480 million over 14-year Initial Time Charter Period and more than USD 600 million all including the 9-year extension period
 - Novation: Either Party may novate/assign Contract with the prior consent of the other Party.
- ii) Assign President & CEO to provide overall direction for finalization, approval, decision-making, signing, and implementation of all matters, information, documents, and tasks related to the Contract with PQPOC, ensuring economic efficiency and compliance with prevailing regulations.

Respectfully submitted to the General Meeting of Shareholders for consideration and approval./.
