PROPOSAL
**On the Amendment of Business Lines of PetroVietnam Technical
Services Corporation**

To: General Meeting of Shareholders
Petrovietnam Technical Services Corporation

Legal bases, grounds and relevant documents:

- Law on Enterprises No. 59/2020/QH14 dated June 17, 2020 and guiding amendments and supplements;
- Law on Securities No. 54/2019/QH14 dated November 26, 2019 and guiding amendments and supplements;
- Decree No. 155/2020/ND-CP dated December 31, 2020 of the Government detailing the implementation of a number of articles of the Law on Securities;
- Decree No. 245/2025/ND-CP amending and supplementing a number of articles of Decree No. 155/2020/ND-CP;
- Charter of PetroVietnam Technical Services Corporation;
- Actual production and business operation situation of PetroVietnam Technical Services Corporation,

The Board of Directors respectfully submits to the General Meeting of Shareholders for consideration and approval the amendment of PetroVietnam Technical Services Corporation's business lines for the purpose of notifying the maximum foreign ownership ratio of the Corporation as set out below.

I. Legal Basis relating to notification obligations for maximum foreign ownership ratio

Pursuant to Decree No. 245/2025/ND-CP dated September 11, 2025 of the Government, public companies that have not yet completed the procedures for notification of the maximum foreign ownership ratio in accordance with Decree No. 155/2020/ND-CP are required to complete such notification within 12 months from the effective date of this Decree (before September 11, 2026).

Pursuant to Decree No. 155/2020/ND-CP dated December 31, 2020 of the Government and Decree No. 245/2025/ND-CP dated September 11, 2025 of the Government, the maximum foreign ownership ratio in a public company shall be determined based on the company's business and investment sectors and the relevant legal regulations. In the case where a public company operates in multiple business sectors subject to different foreign ownership limits, the foreign ownership ratio shall not exceed the lowest limit applicable to any business sector subject to foreign ownership restrictions.

II. Situation of maximum foreign ownership ratio at PTSC

On August 27, 2025, PetroVietnam Technical Services Corporation (the Corporation) issued Notice No. 1406/TB-PTSC to the State Securities Commission of Vietnam (“SSC”) regarding the notification of the Corporation’s maximum foreign ownership ratio (“FOL”) of 49% (*this ratio was determined by the Corporation based on its registered business lines and is consistent with the information recorded on the securities market since the Corporation’s shares were listed*). On September 18, 2025, the SSC issued Official Letter No. 5382/UBCK-PTTT providing comments on certain detailed business activities under the Corporation’s registered business lines which are subject to a maximum FOL lower than 49% (including 04 business codes containing detailed business activities not yet accessible to foreign investors, for which the maximum FOL is 0%, and 02 business codes containing detailed business activities in which the State is required to hold at least 75% of charter capital). Accordingly, the SSC requested the Corporation to review the maximum foreign ownership ratio applicable to its business lines and to carry out procedures for notification of changes to the maximum FOL in accordance with applicable laws and regulations.

On February 4, 2026, the Corporation completed the update of its registered business lines in accordance with the new Vietnam Standard Industrial Classification system promulgated under Decision No. 36/2025/QĐ-TTg dated September 29, 2025 of the Prime Minister. Based on the review of the Corporation’s business lines (after such update pursuant to Decision No. 36/2025/QĐ-TTg) against the market access regulations applicable to foreign investors, the Corporation worked with competent state authorities to prepare procedures for notification of the maximum FOL of 49%. The Corporation was advised that, for business codes and detailed business activities subject to a maximum FOL lower than 49%, the Corporation must clearly specify that it does not conduct such detailed business activities as the basis for carrying out the notification procedures for the maximum foreign ownership ratio of 49%.

III. Recommendations:

In order to ensure capital requirements for the Corporation’s long-term development orientation, the Corporation needs to diversify its capital mobilization channels, including domestic and foreign investors in the securities market. The Board of Directors respectfully submits to the General Meeting of Shareholders for consideration and approval the following matters:

1. The maximum foreign ownership ratio at the Corporation shall be 49%.
2. To amend the detailed business lines of the Corporation as set out in the attached Appendix.
3. To authorize the Board of Directors to finalize and amend the detailed business lines falling under the authority of the General Meeting of Shareholders during the implementation of the relevant works, ensuring that the maximum foreign ownership ratio at the Corporation remains at 49% as stated in Section 1 of this Proposal, and to amend the Corporation’s Charter corresponding to the business lines in accordance with the registration results approved and accepted by the competent authorities.
4. To authorize the President&CEO of the Corporation to fully carry out all necessary tasks and procedures relating to the amendment of the Corporation’s business lines

and foreign ownership ratio with the relevant authorities in accordance with the contents approved by the General Meeting of Shareholders and the Board of Directors pursuant to the laws on enterprise registration, securities, and information disclosure on the securities market.

The Board of Directors respectfully submits to the General Meeting of Shareholders for consideration and approval./.

Yours sincerely,

Recipients:
